

Solar Module 12 V / 50 W

Monocrystalline solar module for Ammonit stand-alone power supply systems

Description

- Monocrystalline solar module for Ammonit stand-alone power supply systems
- Designed for industrial and professional applications
- Scratch resistant anodised aluminum with a twin wall frame

Specifications

Characteristic	Description / Value
Peak Power (P _{max})	50 W
Weight	approx. 4.8 kg (without cable)
Dimensions	650 x 605 x 35 mm
Maximum power voltage	[V _{mp}] 17.6 V
Maximum power current	[I _{mp}] 2.84 A
Short circuit current	[I _{sc}] 3.07 A
Open circuit voltage	[V _{oc}] 21.6 V
Operating module temperature	-40 ... +85 °C
Manufacturer	Sun Plus
